ST-WT001

ST-KT001

- With UK Strix Thermo Control.
Auto-cut-off upon lifting kettle body from its power base;
Concealed Heating Element made of S/S304.
Use Imported High Quality SAMSUNG Plastic.
Unique reinforced switch supports against guest's improper operation.
Special easy-to-clean construction for hotel:
- Big spout: fast and easy cleaning inside of kettle.
 - No filter: to reduce cleaning work and maintenance.
 - Optimized steam vent: less place to clean.

ST-WT002

ST-KT002

- With UK Strix Thermo Control.
Auto-cut-off upon lifting kettle body from its power base;
Concealed Heating Element made of S/S304.
Use Imported High Quality SAMSUNG Plastic.
Unique reinforced switch supports against guest's improper operation.

HAIR DRYER

ST-HD001

Input power : 1200W
Rated frequency : 50/60Hz
Wind speed : 15m/s
Rated voltage : 220V (can be customized)
Product size : L238 x W108x H228mm
Speed settings : One
Nozzle type : Diffuser
Material : ABS
Functions : 1.Auto over-heating protection
2.Electric leakage protection
3.Auto power-off function
Color : White \ black \ silver
Certificate : CCC/CE/GS/ROHS

Input power : 1200W
Rated frequency : 50/60Hz
Wind speed : 15m/s
Rated voltage : 220V (can be customized)
Speed settings : Two
Nozzle type : Diffuser
Material : ABS
Functions : 1.Auto over-heating protection
2.Electric leakage protection
3.Auto power-off function
Color : White \ black \ silver
Certificate : CCC/CE/GS/ROHS

ST-HD002

HAIR DRYER

S+ EINBERG

ST-HD003

ST-HD004

1. Fit for Luxury hotel. Innovative, fashion designs and modern feeling.
2. Slight-Touch Technics applying to keys, lively, stable and comfortable.
3. 3/5/10 groups of "peed dial key" and message retrieval function.
4. Use IC circuit board offering clear hand-free call within 2 meters.
5. SMT technology gets rid of cold solder and false solders joints.
6. Unique copper pins against moisture, rust and short circuit.
7. Double-sided glass fiber board away moisture and short circuit affect function.
8. Qimei ABS from Taiwan for housing offers pure, natural and fade proof colors.
9. Connectors with thickened gold plating ensure no noise due to thin gold plating.

SAFEBOX

ST-SB001

HOTEL SAFE;

Our hotel safes are made of resistant steel material and painted in the best way, thus having a longer life. The safes can be mounted with its special design, preventing any attempt to move the safe. You can create 4 digit and 8 digit master and user passwords. It is also possible to create a single-use passwords. 4 alkaline batteries run the safe for quite long. When the batteries die, easy opening with mechanic key, enabling battery change. When the password is entered wrong for 3 times, 3 minutes of protection mode gets activated and new password entry gets deactivated. After 3 minutes, the safe can be unlocked with the true user password or the master password.

PASSWORD TYPE HOTEL SAFE

Password Safe, Laser-cut steel body, Mountable to wall, Master and user password options, 3 minutes of protection after the password is entered wrong for 3 times, Runs on 4 alkaline batteries, Laptop type, 200x420x37mm (HxWxD)

ST-MB0035G

ST-MB0045

ST-MB0035

A dark, moody photograph of a person's shoulder and hair. The person is wearing a dark, possibly black, garment with a white or light-colored cuff visible at the bottom left. The hair is long and dark, with some strands catching the light. The background is almost entirely black, creating a high-contrast, artistic look.
